Activity Overview

Investigation and Cleanup

CERCLIS Site - MND000685867

Union Scrap Iron & Metal Co-Shafer Plant

Status: Inactive

CERCLIS sites are places that are listed in the federal Comprehensive Environmental Response, Compensation and Liability Information System. This means that they are or were suspected of being contaminated. After CERCLIS sites are investigated, they may be elevated to state or federal Superfund lists, or it may be determined that no action is necessary.

RCRA Remediation - MND000685867

Union Scrap Iron & Metal Co-Shafer Plant

Status: Active

A Resource Conservation and Recovery Act Cleanup site is a place where a business with a hazardous waste license or permit may have released hazardous waste to the environment. These sites are investigated to decide if cleanup is needed.

Site Assessment - SA0007735

Union Scrap Iron & Metal Co-Shafer Plant

Status: Inactive

State Assessment sites are places the MPCA has investigated due to suspected contamination. They are assessed to determine if they pose a risk to human health or the environment. If so, they are referred to a cleanup program.

Events

Event	Start	End
Application/Notification/Registration Received	08/04/1998	08/04/1998

Superfund - SR0000078 - State Superfund project

Union Scrap Iron & Metal Co-Shafer Plant

Status: Inactive

Superfund projects occur where known or suspected environmental contamination is or was a risk to public health or the environment. The Superfund program identifies, investigates and determines appropriate cleanup for these sites. State Superfund sites are on the Minnesota Permanent List of Priorities (PLP).
